OUTCOME OF THE WEBINAR SESSION

India first leadership talk by Shri Anand Mahindra

The students learnt the following from the talk delivered by Shri Anand Mahindra which cannot be picked up from the institution:

- ✚ Humiliation should not lead to casualty. It must be absorbed without taking attempt to defend as it can fetch a positive turning point to their lives.
- ✚ Brevity that is concise and brief communication which leads to simplicity is the key to success.
- ✚ The students must be aware about their potentiality and field of interest to excel.
- ✚ The purpose or motto of doing something must be crystal clear then only the right decision can be taken up to achieve the success.
- ✚ Understanding the root cause of failure and how to cope up with it is an important lesson of life which can be taught by oneself and not by the outsiders. Do not let go terror and tears of failures but accept and absorb the failures with its pain, then only it is possible to bounce back.
- ✚ No human being is absolutely perfect so role model of an individual should not be a single person but a medley of people whom he admires.
- ✚ To be a successful leader a person must have original, creative ideas, tremendous vision and desirable, inspirational, destination for the future. To become a great leader person should not claim the ownership of the idea but considering it as the property of the team. Leaders should have the quality of bringing transformation as per existing scenario or the outstanding capability of implementation.
- ✚ To become successful innovator students should prefer the companies where the culture of innovation persists. Since innovation is critical the performance measurement system must have innovation as primary criteria. The company should give recognition and credit to the innovation.
- ✚ Students who are aspiring for start-ups must have self awareness and appetite for risk. Start-ups can be initiated separately or inside the company where he is registered as employee.

On the whole the talk was informative and encouraging that can makes a positive impact on the mind of youngsters.
