Hyderabad-500 076

### Responsibilities:

IPR Cell will be responsible for the following:

1. Within the institute escalating IP awareness among faculty, staff & students .
2. Managing and protection of the institutional IP through patenting and other IP forms.
3. To encourage faculty, staff and students towards object oriented research at institute level.
4. To fill gap between industry and academic institute in terms of IP utilization and commercialization.
5. Provision of legal counsel in terms of IP issues and policy matters to institute faculty and students who involved in research.
6. To pursue for MOU's with industries for knowledge sharing

### IPR Policy

According to the policy, the institution's IPR cell or incubation centre will only be a coordinator and facilitator for providing services to faculty, staff and students.

The monetary benefits arising from the commercialization of Intellectual Property are disseminated in a fair and impartial way recognizing the contributions of the Inventors, the Institute as well as any other relevant stakeholders.

Policy also entitles students/researchers/ faculty members to sole ownership of patent rights if the product is developed without using any of institution's facilities and funds and work has been conducted outside work hours.

When institute's facilities or funds are used substantially or when product or technology is developed as a part of a curriculum or an academic activity, IPR is to be jointly owned by inventor and the institute. If one or more of the inventors wish to incubate a company and license the product, the royalties would be no more than 2 per cent of sale price.
